SUMMARY

Motivated and detail-oriented Computer Science student with a **GPA of 8.82**, proficient in **Java, Python, SQL, and C**. Successfully developed a **breast cancer survival prediction model** with 99.9% accuracy. Skilled in **Pandas, NumPy, MySQL, Git**, and various development platforms. Strong problem-solving abilities, leadership, and adaptability, with a commitment to meeting deadlines. Enthusiastic about applying technology to real-world challenges and continuously expanding technical expertise.

EDUCATION QUALIFICATIONS

BV RAJU INSTITUTE OF TECHNOLOGY Computer Science and Engineering; GPA: 8.82	Medak 2022-2026
KSHATRIYA JUNIOR COLLEGE(INTERMEDIATE) M.P.C , Marks:983 2020	Armoor -2022
KRISHNAVENI HIGH SCHOOL(SSC) GPA:10	Armoor 2020

SKILLS SUMMARY

- ▮ **Languages:** Java, Python, SQL, C
 - ▮ **Frameworks:** Pandas, NumPy, Matplotlib
 - ▮ **Tools:** Excel, MySQL, Git
 - ▮ **Platforms:** Jupyter Notebook, Visual Studio Code, IDLE, Oracle ,Dev C++,Google Colab
 - ▮ **Soft Skills:** Leadership, Commitment to deadlines, Adaptability, Project Management, Excellent communication
-

PROJECTS

Breast Cancer Survival Prediction Using Gene Sequence Data-Machine Learning Methods 06/2024	04/2024 -
▮ Developed a machine learning model with an exceptional 99.9% accuracy rate in predicting survival outcomes for breast cancer patients ▮ Utilized data from The Cancer Genome Atlas (TCGA) and METABRIC databases to analyze gene expression patterns, aiding in the development of precise prognostic models. ▮ The prognostic model provides reliable survival forecasts, helping guide personalized treatment plans for breast cancer patients.	

CERTIFICATES

Cisco PCAP Programming Essentials in Python

- ▮ Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.
- ▮ Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.

Cisco Programming Essentials in C

- ▮ Comprehensive understanding of programming concepts in the C language, including variables, data types, control structures, functions, arrays, pointers, and file handling.
- ▮ Proficiency in C programming, ability to write efficient and error-free code, understanding of basic algorithms and data structures.

Java certificate in NPTEL

- ▮ I earned a Java certification with a 60% score, demonstrating my understanding of essential Java programming concepts.
- ▮ Throughout the certification process, I learned key topics such as object-oriented programming, Java syntax, error handling, and basic data structures.
- ▮ This certification serves as a foundation for further improving my Java skills and pursuing more advanced topics in software development.

Soft Skills in NPTEL

Earned **NPTEL Soft Skills Certification** with **73%**, showcasing strong communication, leadership, and teamwork abilities.

Developed effective problem-solving, adaptability, and presentation skills, enhancing professional and interpersonal interactions.

Breast Cancer Survival Prediction Using Gene Sequence Data-Machine Learning Methods (Published in International IEEE Conference on Computational Systems and Information Technology for Sustainable Solutions)

ACHIEVEMENTS

FFE (Foundation for Excellence) Scholar – Recognized for exceptional academic achievements and selected for a merit-based scholarship supporting higher education in engineering.
